

APPLICATION NOTE

MPQ Series SD Cards

SD Card Recommendation for the MPQ Series

Different brands and types of SD Cards have different characteristics. Aside from the actual memory size they can differ in write times, read times as well as overall quality.

Megger has performed testing with many different brands.

The following brands are recommended for use with the MPQ series of power quality instruments.
Sizes up to 32GB have been tested with the MPQ Series of power quality instruments.

Sandisk SD Cards
Kingston SD Cards
